

An update for Our Friends

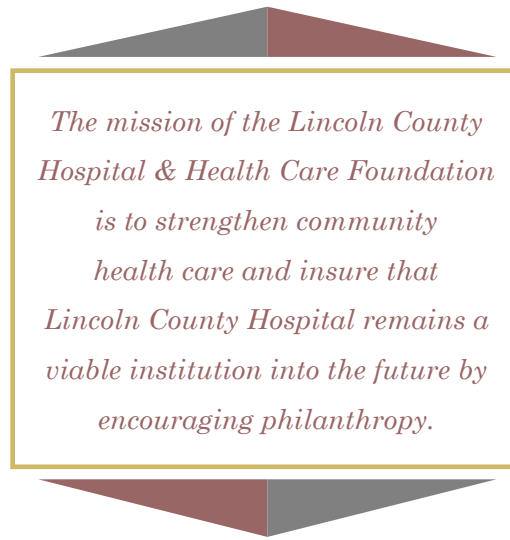

The renovations are underway! Pictures on the previous page show our new look. The rooms will be private unless demand is such that semi-private is needed. Each room will boast a modern, patient friendly bathroom with phone and TV services. We are moving out of the 1950's to a modern, comfortable, and highly functional hospital.

As we make the changes to our hospital structure with Public Building Commission Revenue Bonds, we have other needs that are just as important. This is where we need your help.

Our plan is to accommodate state of the art information technology. Health care providers across the country recognize the benefits of **electronic health records**. We will have better access to patient information, it will promote the use of reference data to support decisions regarding patient care, and it holds the promise of improving the quality, safety and efficiency of healthcare delivery.

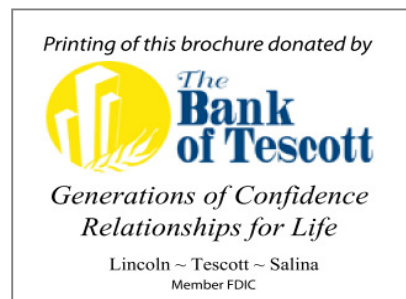

Digital radiography and electronic lab systems are other ways for us to update our hospital. These are systems which will provide accuracy and better response time for our patients.

The cost for these systems for Lincoln County Hospital is projected in the range of \$500,000.

The mission of the Lincoln County Hospital & Health Care Foundation is to strengthen community health care and insure that Lincoln County Hospital remains a viable institution into the future by encouraging philanthropy.

We are renovating our hospital and launching this campaign to meet today's needs for efficiency, safety and privacy. Please help us achieve our goal for Lincoln County.

A Vision for Our Future

We have embarked on a campaign to provide **electronic health records, digital radiography and electronic lab systems** for the hospital so that we can better care for our patients. Your support will ultimately modernize our hospital making it more efficient and cost-effective.

Wall of Honor and Naming Opportunities - In recognition of your support donors of \$1,000 or more will have their names prominently displayed on a Wall of Honor in the lobby of the newly renovated hospital. Donors of \$10,000 or more may have the opportunity to name (for themselves, their families, their business) a hospital room or other area within the hospital.

Please consider giving generously to help make Lincoln County Hospital the best it can be for our community.

The Lincoln County Hospital and Health Care Foundation thanks you for your help in our capital campaign. We pledge to continue to make patient and family care come first in the minds of our administration and staff. We are committed to excellence for the Lincoln County Hospital as we provide for our future.
